RECONSTRUCTION WORK ON NH ROUTE 11 IN ALTON
600 FEET AT MUNCH COVE ROAD WILL REQUIRE LANE CLOSURES

The New Hampshire Department of Transportation announces road reconstruction work on NH Route 11 in Alton is scheduled to proceed the week of September 19, 2005 on a 600-foot section of Route 11 at Minge Cove Road between NH Routes 11A and 11D.

Traffic on Monday, September 19 and Tuesday, September 20 will be diverted onto a two-lane gravel surface detour. The rest of the week motorists should expect lane closures and some delays.

This project involves the rehabilitation of a 4-mile stretch of NH Route 11 in Alton from just east of the intersection with NH Route 11D to Minge Cove Road. It includes rock scaling, new guardrail and some minor drainage work.

Pike Industries Inc. of Belmont, New Hampshire is the general contractor for the \$2.8 million project, which has a final completion date of spring 2006.
